

Apeiron is Here to Help with COVID-19

Apeiron is here to be a source of **Emergency Disinfection Services** should the need arise during these troubling times of Worldwide Pandemic. Our President, Tim Riviere has many years of industry experience with disinfection and sanitization following strict CDC guidelines. It is important to understand the efficacy of particular solutions regarding infection control. Understanding dwell times and eliminating the opportunity for cross contamination are of major importance.

Supported Efforts

- Deep Cleaning of hard surfaces with EPA registered chemistries.
- Misting and fogging of hard surfaces following CDC protocols.
- Treating high touch points regularly with products that have a residual effect following CDC protocols.

Service Spotlight

Apeiron is here to support your efforts toward a deep cleaning focus of all hard surfaces. Our crews are being constantly monitored for personal health and hygiene, and we are diligent in our use of Personal Protective Equipment.
